

Mission Statement: The leading voice for the nursing profession since 1900, AJN promotes excellence in nursing and health care through the dissemination of evidence-based, peer-reviewed clinical information and original research, discussion of relevant and controversial professional issues, adherence to standards of journalistic integrity and excellence, and promotion of nursing perspectives to the health care community and the public.

FEATURES

24 Original Research

Understanding ICU Nurses' Attitudes Toward Medical Errors and Error Reporting: A Cross-Sectional Study

By Muzaffer Berna Doğan and Ayda Kebapçı

This study sought to identify and analyze the main factors that influence nurses' attitudes toward medical errors and the barriers to reporting these errors.

32 Case Report

Ascaris lumbricoides: A Clinical Case Report **NCPD**

By Melissa Dawn Harlan, Becky L. Faett, Susan E. Miller, and Patricia K. Tuite

This case report follows a woman who developed ascariasis, an infection caused by the parasitic roundworm *Ascaris lumbricoides*, and discusses clinical manifestations, diagnostic testing, and treatment, as well as nursing management for those with suspected infection.

38 Original Research **OPEN**

Using an AI-Powered Solution to Transform Nursing Workflow and Improve Inpatient Care: A Retrospective Observational Study

By Luana Llagostera Sillano Gentil, Vanessa Aparecida Luz Pires, Jéssica Andrade-Silva, Youri Eliphaz Almeida, Paulo Gurgel Pinheiro, Claudio Gurgel Pinheiro, and Claudia Regina Laselva

The authors of this study aimed to evaluate an artificial intelligence-driven technology that automates patient requests and directs them to the appropriate teams in other departments instead of to the nurses' station, thereby eliminating the need for nursing intervention in noncare tasks.

44 Professional Development

Statistical Validation of Health Care Questionnaires for Nursing Researchers

By Dave S. Collingridge and Brooklyn N. Collingridge

The authors provide an easy-to-follow computerized approach to statistical validation and describe its implications for hypothesis testing, aiming to make the process of validation more accessible to nursing researchers who may not have extensive statistical training.

SDC

The Therapeutic Hub: A Person-Centered Approach to Age-Friendly Care

By Michelle Nai, Roxann Robinson, Anna-Rae Montano, and Christine Waszynski

This article describes the Therapeutic Hub, a space at an acute care level 1 trauma center in which nurses and other staff utilize the 4Ms of an Age-Friendly Health System to offer multisensory stimulation and comfort to older patients, with the aim of preventing cognitive and functional decline, agitation, and delirium.
