40 Traumatic Brain Injuries Sustained in the Afghanistan and Iraq Wars

By Elisabeth Moy Martin, Wei C. Lu, Katherine Helmick, Louis French, and Deborah L. Warden

Clinicians at the Defense and Veterans Brain Injury Center discuss screening and intervention for what's been called the "signature wound" of U.S. soldiers serving in Afghanistan and Iraq.

39 Injured in Iraq: Photographs
By Joy Jacobson and Christine Moffa; photographs by Michael Kamber and Nina Berman

Two American soldiers.

49 Art of Nursing
By Ellen Bildner
"Wound Care," a poem.

52 How to Try This: The Lawton Instrumental Activities of Daily Living Scale

By Carla Graf

The Lawton scale can help nurses to identify early functional decline and determine home care services.

73 Emergency: Nurses Using Volumetric Bladder Ultrasound in the Pediatric ED

By Brigitte M. Baumann, Barbara E. Welsh, Cathy J. Rogers, and Kathleen Newbury

A painful bladder catheterization in a child may not produce enough urine for laboratory tests. Ultrasound may help.

88 Reflections: Letting Charlotte Go
By Alexis B. Ressler

A student reckons with the limits of compassion.
