

GERIATRIC NURSING

VOL. 33, NO. 3 □ MAY/JUNE 2012

EDITORIAL

FROM THE EDITOR

- 165 One Step Forward for Interdisciplinary Geriatrics**
Barbara Resnick

FEATURE ARTICLES

- 167 Inner Strength in Relation to Functional Status, Disease, Living Arrangements, and Social Relationships Among People Aged 85 Years and Older**

Berit Lundman, Lena Al  x, Elisabeth Jons  n, Hugo L  vheim, Bj  rn Nygren, Regina Santam  ki Fischer, Gunilla Strandberg, and Astrid Norberg

The Resilience, Sense of Coherence, Purpose in Life, and Self-Transcendence scales were used to assess aspects of inner strength data from a sample of 185 Swedish people in the Ume   85+ cohort study to relate inner strength and its attributes to objective health variables.

- 177 Clinical Feasibility Trial of a Motion Detection System for Fall Prevention in Hospitalized Older Adult Patients**

Marisa Ferrari, Barbara Harrison, Osamah Rawashdeh, Robert Hammond, Yvonne Avery, Muawea Rawashdeh, Waseem Sa'deh, and Michael Maddens

The purpose of this pilot study was to test the feasibility of a wireless five sensor, motion detection system (5S-MDS) with hospitalized older adults. Wearable motion sensors, which track and wirelessly transmit body movements, may identify human movement patterns that immediately precede falls, thus allowing early prevention.

- 184 Associations Between Chewing and Swallowing Problems and Physical and Psychosocial Health Status of**

19 N.A. 255b

Long-Term Care Residents in Taiwan: A Pilot Study

Tze-Fang Wang, I-Ju Chen, and I-Chuan Li

We aimed to determine the factor associated with chewing and swallowing problems among nursing home residents in Taiwan. Residents' chewing and swallowing problems were significantly associated with parenteral/enteral intake, oral health status, nutritional status, concomitant disease and infection, cognitive function and social engagement.

- 194 Pet Ownership and Older Women: The Relationships Among Loneliness, Pet Attachment Support, Human Social Support, and Depressed Mood**

Cheryl A. Krause-Parello

This cross-sectional study investigated the relationships among loneliness, pet attachment support, human social support, and depressed mood in a convenience sample of 159 pet-owning older women residing in the community.

- 204 Dementia-Specific Quality of Life Instruments and Their Appropriateness in Shared-Housing Arrangements—A Literature Study**

Johannes Gr  ske, Thomas Fischer, Adelheid Kuhlme  , and Karin Wolf-Ostermann

This papers aims to identify QoL instruments which relate to the core domains of shared-housing arrangements in Germany.
