FEATURE ARTICLES

- 355** **Identification and rates of delirium in elderly medical inpatients from diverse language groups**

Anne PF. Wand, William Thoo, Vicky Ting, Janett Baker, Hayley Sciuriaga, and Glenn E. Hunt

A linguistically-diverse cohort of 126 medical inpatients 65 years and over was recruited to determine rates of delirium after admission, associated outcomes, and staff detection of delirium.

- 361** **Features of problematic eating behaviors among community-dwelling older adults with dementia: Family caregivers' experience**

Hua-Chen Hsiao, Hui-Chen Chao, and Jing-Jy Wang

This study aimed to explore family caregivers' experience of the problematic eating behaviors among community-dwelling older adults with dementia, and how these caregivers cope with these problems.

- 366** **Effect of age on febrile response in patients with healthcare-associated bloodstream infection**

Shu-Hua Lu, Yee-Chun Chen, Yue-Cune Chang, Chung-Jen Yen, and Yu-Tzu Dai

This study aimed to determine the effect of age on febrile response in patients with healthcare-associated bloodstream infection.

- 373** **Feasibility appraisal of an elastic band exercise program for older adults in wheelchairs**

Kuei-Min Chen, Wei-Shyuan Tseng, Ya-Hui Chang, Hsin-Ting Huang, and Chun-Huw Li

Study participants revealed that the Wheelchair-bound Senior Elastic Band exercise program was feasible, safe, appropriate, and helpful to them.

- 377** **The feasibility of an intervention combining self-efficacy theory and Wii Fit exergames in assisted living residents: A pilot study**

Ying-Yu Chao, Yvonne K. Scherer, Yow-Wu Wu, Kathleen T. Lucke, and Carolyn A. Montgomery

The use of Wii exergames was an acceptable, safe, and potentially effective approach to promote physical activity in older adults.

- 383** **Caregiving demand and difficulty in older adult spousal caregivers after coronary artery bypass surgery**

Esther O. Park, Bernice C. Yates, Karen L. Schumacher, Jane Meza, Karl Kosloski, and Carol Pullen

The purpose of this study was to describe the caregiving demands and difficulties for older adult spousal caregivers of coronary artery bypass surgery patients.

- 388** **A conceptual model for culture change evaluation in nursing homes**

Christine W. Hartmann, A. Lynn Snow, Rebecca S. Allen, Patricia A. Parmelee, Jennifer A. Palmer, and Dan Berlowitz

This article describes the development and particulars of a new, comprehensive model of nursing home culture change applicable to nursing home environments, the Nursing Home Integrated Model for Producing and Assessing Cultural Transformation (Nursing Home IMPACT).

GERIATRIC NURSING

VOL. 34, NO. 5 □ SEPTEMBER/OCTOBER 2013

395 **Everyday memory strategies for medication adherence**

Julie Blaskewicz Boron, Wendy A. Rogers, and Arthur D. Fisk

The older adults in the current study reported using multiple strategies, and perceived them to be more helpful when in their normal routines.

402 **Applying the Advancing Excellence in America's Nursing Homes Circle of Success to improving and sustaining quality**

Debra Bakerjian, and Anna Zisberg

This article outlines key steps in QI and suggests RN leader responsibilities and then provides a structure and processes that can be followed based on the Advancing Excellence Campaign Circle of Success and evidence based resources.
