Editorial

Merger of models on clinical instability – misleading for patients and clinicians?
A. Pool-Goudzwaard

Systematic Reviews

Cervical arterial dissection: An overview and implications for manipulative therapy practice
L.C. Thomas

Efficacy of musculoskeletal manual approach in the treatment of temporomandibular joint disorder: A systematic review with meta-analysis

The effectiveness of soft-tissue therapy for the management of musculoskeletal disorders and injuries of the upper and lower extremities: A systematic review by the Ontario Protocol for Traffic Injury management (OPTIMA) collaboration

Physical examination tests for screening and diagnosis of cervicogenic headache: A systematic review
J. Rubio-Ochoa, J. Benítez-Martínez, E. Lluch, S. Santana-Zaragozá, P. Gómez-Contreras, C.E. Cook

Measurement methods to assess diastasis of the rectus abdominis muscle (DRAM): A systematic review of their measurement properties and meta-analytic reliability generalisation
A.T.M. van de Water, D.R. Benjamin

Review

Acute effects of stretching on maximal muscle strength and functional performance: A systematic review of Japanese-language randomised controlled trials
K. Mine, T. Nakayama, S. Milanese, K. Grimmer

Original Articles

Does changing the plane of abduction influence shoulder muscle recruitment patterns in healthy individuals?
D. Reed, I. Cathers, M. Halaki, K.A. Ginn

Disturbed body perception, reduced sleep, and kinesiophobia in subjects with persistent lumbar region pain and moderate levels of disability: An exploratory study
D. Beales, A. Lutz, J. Thompson, B.M. Wand, P. O’Sullivan

The effects of training and detraining after an 8 month resistance and stretching training program on forward head and protracted shoulder postures in adolescents: Randomised controlled study
R.M. Ruivo, A.I. Carita, P. Pezarat-Correia

Neuromuscular ultrasound imaging in low back pain patients with radiculopathy
L.R. Frost, S.H.M. Brown

Kinesiology tape does not promote vertical jumping performance: A deceptive crossover trial

Convergent validity of the Timed Up and Go Test and Ten-metre Timed Walk Test in pregnant women with pelvic girdle pain
N.M. Evensen, A. Kviåle, I.H. Brækken

Innominate movement patterns, rotation trends and range of motion in individuals with low back pain of sacroiliac joint origin
D.B. Adhia, S. Milosavljevic, S. Tomilny, M.D. Bussey

Diary of Events and further information available at www.elsevier.com/math

Validation of clinical tests for patients with long-lasting painful temporomandibular disorders with anterior disc displacement without reduction
E.H. Jalsvoll, N.K. Vollestad, H.S. Robinson

109

Prediction of outcome in patients with low back pain – A prospective cohort study comparing clinicians’ predictions with those of the Start Back Tool
A. Kongsted, C.H. Andersen, M.M. Hansen, L. Hestbaek

120

Laterality judgments in people with low back pain – A cross-sectional observational and test–retest reliability study
M. Linder, P. Michaelsson, U. Röjtezon

128

Topographical pressure sensitivity maps of the shoulder region in individuals with subacromial pain syndrome
I.L. Ribeiro, P.R. Camargo, F. Alburquerque-Sendín, P. Madeleine, C. Fernández-de-las-Peñas, T.F. Salvini

134

Cervical and scapulothoracic stabilization exercises with and without connective tissue massage for chronic mechanical neck pain: A prospective, randomised controlled trial
S.T. Celeny, D.O. Kaya, T. Akbayrak

144

Increased duration of co-contraction of medial knee muscles is associated with greater progression of knee osteoarthritis
P.W. Hodges, W. van den Hoorn, T.V. Wrigley, R.S. Hinman, K.-A. Bowles, F. Cicuitini, Y. Wang, K. Bennell

151

3D motion reliability of occipital condylar glide testing: From concept to kinematics evidence
B. Beyer, S. Sobczak, W. Salem, V. Feipel, P.-M. Duguilly

159

Comparison of psoas major muscle thickness measured by sonography during active straight leg raising in subjects with and without uncontrolled lumbo-pelvic rotation

165

Somatization is associated with worse outcome in a chiropractic patient population with neck pain and low back pain

170

Mechanical properties of the trapezius during scapular elevation in people with chronic whiplash associated disorders – A case-control ultrasound speckle tracking analysis
M. Landén Ludvigsson, G. Peterson, G. Jull, J. Trygg, A. Peolsson

177

Effects of spinal manipulation on sensorimotor function in low back pain patients – A randomised controlled trial

183

Can hip abduction and external rotation discriminate sacroiliac joint pain?
D.B. Adhia, S. Tumility, R. Mani, S. Milosavljevic, M.D. Bussey

191

In-vivo measurements of force and humeral movement during inferior glenohumeral mobilizations
D.W. Witt, N.R. Talbott

198

The effect of the combination of dry needling and MET on latent trigger point upper trapezius in females
A. Yeganeh Lari, F. Okhovatin, S.S. Naimi, A.A. Baghban

204

Effects of low back pain and of stabilization or movement-system-impairment treatments on induced postural responses: A planned secondary analysis of a randomised controlled trial
J.W. Jacobs, K.V. Lomond, J.R. Hitt, M.J. DeSarno, J.Y. Bun, S.M. Henry

210

Effects of pressure applied during standardized spinal mobilizations on peripheral skin blood flow: A randomised cross-over study
R. Zegarra-Pardo, V.K. Pazzernik, M. Roustit, P.Y.S. Park, B.F. Degenhardt

220

Cervical & thoracic manipulations: Acute effects upon pain pressure threshold and self-reported pain in experimentally induced shoulder pain

227

Osteopathic educators’ attitudes towards osteopathic principles and their application in clinical practice: A qualitative inquiry
H. Kasiri-Martino, P. Bright

233

A new way of assessing arm function in activity using kinematic Exposure Variation Analysis and portable inertial sensors – A validity study
P. Ertzgaard, F. Oloberg, B. Gerde, H. Grip

241

Modifying the shoulder joint position during shrugging and retraction exercises alters the activation of the medial scapular muscles
B. Castlein, A. Cools, T. Parlevliet, B. Cagnie

250

The association between loss of ankle dorsiflexion range of movement, and hip adduction and internal rotation during a step down test
T. Bell-Jenje, B. Olivier, W. Wood, S. Rogers, A. Green, W. McKinnon

256

Construct validity of change scores of the Chair Stand Test versus Timed Up and Go Test, KOOS questionnaire and the isometric muscle strength test in patients with severe knee osteoarthritis undergoing total knee replacement
E.O. Huber, A. Meichtry, R.A. de Bie, C.H. Bastiaenen

262
Investigating the contribution of the upper and lower lumbar spine, relative to hip motion, in everyday tasks
R.S. Alghani, M.D. Jones, P.S. Theobald, J.M. Williams

Professional Issues
Understanding why the thoracic region is the ‘Cinderella’ region of the spine
N.R. Heneghan, A. Rushton

The role of clinician emotion in clinical reasoning: Balancing the analytical process
N. Langridge, L. Roberts, C. Pope

Technical and Measurement Reports
Does repeated palpation-digitization of pelvic landmarks for measurement of innominate motion introduce a systematic error? – A psychometric investigation
D.B. Adhia, R. Mani, S. Milosavljevic, S. Tumilty, M.D. Bussey

Do experienced physiotherapists and final year physiotherapy trainees apply similar force during posterior-to-anterior lumbar mobilization techniques?
D.H. Gagnon, C. Longtin, D. Berbiche, N. Gaudreauault

Case Reports
Is the Patellar Pubic Percussion Test useful to diagnose only femur fractures or something else?
Two case reports
M. Segat, O. Casonato, M. Margelli, S. Pillon

Computer-aided combined movement examination of the lumbar spine and manual therapy implications: Case report

Changing beliefs for changing movement and pain: Classification-based cognitive functional therapy (CB–CFT) for chronic non-specific low back pain
N. Meziet Filho

Manual therapy in the management of a patient with a symptomatic Morton’s Neuroma: A case report
J.D. Sault, M.V. Morris, D.J. Jayaseelan, A.J. Emerson-Kavchak
