Utility of a brief assessment tool developed from the Dizziness Handicap Inventory to screen for Cervicogenic dizziness: A case control study
S.A. Reid, R. Callister, M.G. Katekar, J.M. Treleaven 42

Disrupted body-image and pregnancy-related lumbopelvic pain. A preliminary investigation

Activation of the semispinalis cervicis and splenius capitis with cervical pulley exercises

Rotator cuff-related pain: Patients’ understanding and experiences
M.A. Gellespie, A. Mączaik, C.A. Wassinger, G. Sole 64

The diagnostic accuracy and test-retest reliability of the Dutch PainDETECT and the DN4 screening tools for neuropathic pain in patients with suspected cervical or lumbar radiculopathy
R. Epping, A.P. Verhagen, E.A. Hoebink, S. Rooker, G.G.M. Scholten-Peeters 72

Technical and Measurement Report
Influence of stretching velocity on musculotendinous stiffness of the hamstrings during passive straight-leg raise assessments
T.B. Palmer, N.D.M. Jenkins, B.J. Thompson, J.T. Cramer 80

Letters to the Editor
Re: The development of a shoulder specific left/right judgement task: Validity & reliability
T.D. Funt e87
[available online, doi: 10.1016/j.msksp.2017.04.007]

Reply to the letter to the Editor ‘Re: The development of a shoulder specific left/right judgement task: Validity & reliability’
J.D. Breckenridge, J.H. McAuley, D.S. Butler, H. Stewart, G.L. Moseley, K.A. Ginn e88
[available online, doi: 10.1016/j.msksp.2017.04.008]

Reply to letter to the Editor ‘Changes in biochemical markers following spinal manipulation – A systematic review and meta-analysis’
K.K. Sampath, R. Mani, J. Cotter, A.S. Gieselmann, S. Turnity e90
[available online, doi: 10.1016/j.msksp.2017.05.004]

Changes in inflammatory biomarkers following spinal manipulation
J.C. Licciodone e91
[available online, doi: 10.1016/j.msksp.2017.05.005]

Publisher’s Note: All articles published in Musculoskeletal Science and Practice will be immediately assigned online to an issue upon receipt of author proof corrections, resulting in immediate publication for our authors, without the need to wait as an Article in Press. We wish to make our readers aware that this will result in a Table of Contents where the page numbers do not always run sequentially.

Diary of Events and further information available at www.elsevier.com/math

Official journal of the Musculoskeletal Association of Chartered Physiotherapists, The Dutch Association for Manual Therapy
Letter to the editor - Adverse events associated with the use of cervical spine manipulation or mobilization and patient characteristics
P. Tuchin
[available online, doi: 10.1016/j.mskep.2017.05.006]

Response to – Adverse events associated with the use of cervical spine manipulation or mobilization and patient characteristics: A systematic review
H.A. Kranenburg, M.A. Schmitt, E.J. Puentedura, G.J.R. Lutjcx, C.P. Van der Schans
[available online, doi: 10.1016/j.mskep.2017.05.008]

Corrigendum
Corrigendum to “Osteopathic manipulative treatment: A systematic review and critical appraisal of comparative effectiveness and health economics research” [Musculoskelet. Sci. Pract. 27 165–175]

Evolution of the methodological quality of controlled clinical trials for myofascial trigger point treatments for the period 1978–2015: A systematic review
R. Stoop, R. Clijsen, D. Leoni, E. Soldini, G. Castellini, V. Redaelli, M. Barbero
