feature articles

10 Improving Oral Health in Women: Nurses' Call to Action

CE

This overview article about the importance of oral health to the optimal health of women sets the stage for this series of articles.

Donna A. Clemmens, PhD, RN, and A. Ross Kerr, DDS

17 Promoting Oral Health From Birth Through Childhood: Prevention of Early Childhood Caries

CE

Are you aware of the dangers of early childhood caries? Did you even know about this diagnosis? How does it happen? What can you, as a nurse, do to prevent it?

Jennifer Yost, MA, RN, and Yihong Li, DrPH, MPH, DDS

26 Oral Health of Adolescents—It's More Than Dental Caries

The general health risks posed by behaviors of adolescents are well known to nurses, but do you know the risks associated with oral behaviors such as use of smokeless tobacco, oral sex, or other perilous activities that many teenagers consider harmless?

Melanie S. Percy, PhD, RN, CPNP, FAAN

32 Pregnancy and Oral Health: A Review and Recommendations to Reduce Gaps in Practice and Research

A lot has been written in the research literature during the past decade about pregnancy and oral health, and these authors, a dentist and a nurse scientist, tie all the information together for you.

Stefanie L. Russell, DDS, MPH, PhD, and
Linda J. Mayberry, PhD, RN, FAAN

38 Nursing Care and Management of Pathological Oral Conditions Among Women and Children

Some oral conditions are clearly pathological. Dr. Febder explains the most common oral pathogens, the diseases they cause, and what nurses should be doing to assess and manage them.

William P. Febder, PhD, CRNA

45 Maternal Periodontal Disease, Pregnancy, and Neonatal Outcomes

Some studies have suggested periodontitis as a precursor to preterm labor and birth. These dentist and nurse collaborators have examined the relevant literature and made recommendations for appropriate nursing care.

Ananda P. Dasanayake, PhD, MPH, BDS, FACE,
Susan Gennaro, DSN, RN, FAAN,
Karen D. Hendricks-Muñoz, MD, MPH, FAAP, and
Nok Chhun, MS

50 Oral Health and HIV/AIDS

The oral cavity is commonly involved in HIV infections. These authors, dentists and a nurse scientist, tell you what you need to know about how to help women and children with HIV/AIDS who have oral complications.

Susan Gennaro, DSN, RN, FAAN, Sudeshi Naidoo, PhD, DDPH, and Peter Berthold, PhD, LDS, DMD

6 GUEST EDITORIAL

The Shadow of Your Smile

This special issue on oral health among women and children is an outgrowth of the historic innovative placement of the NYU College of Nursing in the College of Dentistry, and reflects a contemporary emphasis in nursing on the importance of oral health to overall health.

Susan Gennaro, DSN, RN, FAAN

7 COMMENTARY

New York University College of Nursing Takes on the Challenge of Innovation for the Healthcare System

Dean Fulmer describes the NYU College of Nursing's commitment to changing the healthcare system using novel approaches to patient care which involve collaboration with dentistry.

Terry Fulmer, PhD, RN, FAAN

8 SECOND OPINION

Should Elective Dental Procedures Be Done During Pregnancy?

Many women are afraid to have dental work done during pregnancy. Some dentists prefer to wait until after a pregnancy to work with pregnant women. Read what two experts have to say in debating this topic.

Coordinated by Kathleen Leask Capitolo, DNSc, RN, FAAN

Debaters: Terri A. Cavaliere, MS, RNC, NNP, and Paul J. Grunseich, DDS

58 INFANT NUTRITION

Oral Health: Getting Off to a Good Start

Infancy is the right time to influence the future oral health of children. Dr. Morin explains how.

Karen H. Morin, DSN, RN

59 THE NEW NETWORKING

Go Online for Oral Health!

Our intrepid Internet traveler Dr. McCartney has found just the right places for you to learn about oral health on the World Wide Web.

Patricia R. McCartney, PhD, RN, FAAN

60 GLOBAL HEALTH AND NURSING

Global Oral Health in Women and Children

While the problems in oral health are prevalent for many ethnic and social groups in the U.S., there is no comparison to the sorry state of oral health in many countries of the world.

Lynn Clark Callister, PhD, RN, FAAN

62 TOWARD EVIDENCE-BASED PRACTICE

Experts suggest how 6 research articles can be used in nursing practice.

Judith A. Lewis, PhD, RNC, FAAN, and Laura L. Hayman, PhD, RN, FAAN

Proud Platinum Sponsor of

MCN AWARDS

The *MCN* Practice Article of the Year and The *MCN* Research Article of the Year are chosen by a distinguished panel of experts, and designate these articles as having outstanding scholarly attributes as well as clear applicability to clinical nursing practice. Each year, award winners will be notified in January and listed in the January/February issue of *MCN*. See the *MCN* Web site for a list of all winners.

MCN Author Guidelines are available at www.mcnjournal.com

When citing an article from this Journal in your CV or in a reference list, please use the Journal's complete name every time: "MCN The American Journal of Maternal Child Nursing"
