Contents

EDITORIAL

Finding the Right Journal to Disseminate Your Research
Susan J. Hentyl

FEATURE ARTICLES

OPEN Neuroimaging of Goal-Directed Behavior in Midlife Women
Kelly Bosak and Laura Martin

Matching Doses of Distraction With Child Risk for Distress During a Medical Procedure: A Randomized Clinical Trial
Ann Marie McCarthy, Charmaine Kleiber, Kirsten Hanrahan, M. Bridget Zimmerman, Anne Ersig, Nina Westhus, and Susan Allen

Health Literacy and Nurses’ Communication With Type 2 Diabetes Patients in Primary Care Settings
Fatima Al Sayah, Beverly Williams, Jenelle L. Pederson, Sumit R. Majumdar, and Jeffrey A. Johnson

SDC Micturition Problems After Bladder Distension During Hospitalization in Sweden: “I’m Not Ill, Just Damaged for the Rest of My Life”
Eva Joelsson-Alm, Claes R. Nyman, Christer Svensén, and Johanna Ulfvarson

BIOLOGY REVIEW

Assessing the Immune Status of Critically Ill Trauma Patients by Flow Cytometry
Joshua W. Kuether, Rachael Mintz-Cole, Bobby L. Johnson III, Emily F. Midura, Charles C. Caldwell, and Barbara St. Pierre Schneider
Compression Stocking Length Effects on Arterial Blood Pressure and Heart Rate Following Head-Up Tilt in Healthy Volunteers
Kunihiko Tanaka, Shiori Tokumiya, Yumiko Ishihara, Yumiko Kohira, and Tetsuro Katafuchi

Medication-Related Problems Among Community-Dwelling Older Adults After Recent Hospital Discharge in Mainland China
Tian Xiong, Jie Li, Jing Mao, and Jiaqi Xu

Journal Information
Nursing Research has a long and distinguished record in the history of nursing science. Since its launch in 1952, Nursing Research has been a “cooperative venture” of scientists, professional organizations, publisher, editorial staff, and readers to circulate scientific papers in nursing to improve care, alleviate suffering, and advance well-being. Today, Nursing Research continues as a preeminent journal in the field, and is the official journal of the Eastern Nursing Research Society (ENRS) and the Western Institute of Nursing (WIN).

Nursing Research publishes regular papers and brief reports in the following areas:

• Empirical Findings about
- Health and illness experiences of individuals, families, and communities
- Prevention and therapeutic self-care, nursing, and health team interventions
- Nursing systems, quality of care, and patient outcomes
- Health and illness over time, across the lifespan
- Health and illness in social and physical context
- Nursing education, when focused on issues related to research curriculum, research instruction, or investigator development at any career development stage

• Biology Reviews
- Current advances in basic biological sciences related to emerging areas of nursing science
- Translational research related to emerging areas of nursing science
- See the Call for Papers (below): Biology Reviews for Nursing Research
