Psychosocial Nursing[®]

AND MENTAL HEALTH SERVICES

Features

24 Living with Type 2 Diabetes: Marital Perspectives of Middle-Aged and Older Couples

In diabetes, it's critical to assess couples' sense of vulnerability, burden, and capacity to get by. Be prepared to also offer conflict resolution strategies, as nagging and arguments are common.

Elizabeth A. Beverly, MS; Janice Penrod, PhD, RN, BSN, MS; and Linda A. Wray, PhD

35 A Recovery-Oriented Approach to Psychiatric Medication: Guidelines for Nurses

Why do some people stop taking their medication as prescribed? Explore the reasons with clients and find out how drugs fit with their personal recovery goals.

David Roe, PhD; and Margaret Swarbrick, PhD, OTR, CPRP

44 Eagle Soaring: The Power of the Resilient Self

Help children soar above the victim label and strengthen their resiliency within their cultural traditions. In this article, Eddie's story is a powerful example.

Bonnie Engel, MSN, RN, APRN, BC, CNS-Psychiatric

Sections

15 Psychopharmacology

Managing Common Side Effects of SSRIs

Improve treatment adherence and outcomes by helping clients manage these 7 common side effects.

Robert H. Howland, MD

19 Youth in Mind

Can We Immunize Children Against Violence?

Learn about 5 risk factors for aggressive behavior in youth, as well as one exemplary program to combat violence.

Teena M. McGuinness, PhD, APRN-BC
