Features

22 Hypnosis for Pain Management

Learn more about 7 strategies that can help focus relaxation and alleviate pain without medication.

Sharon M. Valente, RN, CS, PhD, FAAN

31 Preceptorship: A Shared Journey Between Practice and Education

Explore a creative new approach for attracting new nurses to mental health: a collaborative workshop decreases frustration and increases retention.

Judith M. Pickens, PhD, RN, and Barbara P. Fargotstein, MN, RN

38 An Education Intervention for Families of People with Schizophrenia in China: Development and Evaluation

A questionnaire revealed what patients and their family members need to know; a comprehensive education guide delivered the knowledge and skills.

Zheng Li, RN, PhD, and David G. Arthur, PhD

Sections

13 Psychopharmacology

Personalized Drug Therapy with Pharmacogenetics—
Part 2: Pharmacodynamics

New technology explores the genetic differences that determine how patients will respond to medications.

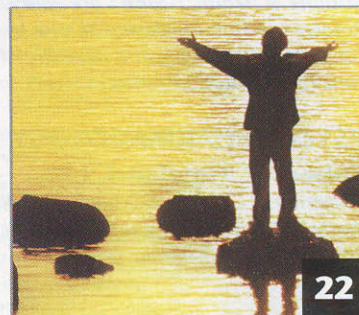

Robert H. Howland, MD

17 Youth in Mind

Marriage, Divorce, and Children

Children of married parents have higher standards of living, greater bonding, and less overall stress. So what about the 55% of American children whose parents have divorced?

Teena M. McGuinness, PhD, APRN-BC
